

INTERNATIONAL ELECTROTECHNICAL COMMISSION

IEC 60092-378
Edition 1.0 2024-11

Electrical installations in ships -
Part 378: Optical fiber cables

CORRIGENDUM 1

5.5.2 Thickness of inner covering

Replace the sentence:

“The values of the nominal thickness of extruded inner covering shall be minimum 1,0 mm.”

To this sentence:

“The thickness of extruded inner covering shall have an approximate value of 1,0 mm.”
