

Glossary of Terms Relating to Body of Passenger Cars

1. Scope

This standard specifies the terms relating to the body of passenger cars (referred to as "terms" hereinafter).

2. Purpose

This standard aims to standardize the terms relating to the body of passenger cars.

3. Classification

Classification of the terms shall be as follows:

- (1) Basic
- (2) Terms relating to construction of body
- (3) Terms relating to position and shape
- (4) Terms relating to body shell
- (5) Terms relating to functional parts of body
- (6) Terms relating to elemental parts

4. Terms and Definitions

The terms and definitions shall be as follows. For the purpose of reference, the English equivalents, customary terms, and reference standards are described.

- Remarks**
- 1: Where [] is attached to a part of terms, the contents in [] may be omitted in general.
 - 2: The numbers shown in () following the term in definition column indicate the numbers of terms in this standards.
 - 3: The terms and definitions to which "reference" is given in the number columns are transcribed from the reference standard as they are.
 - 4: Customary terms will not be used in future.
