#### JAPANESE INDUSTRIAL STANDARD

JIS

### Glossary of terms relating to suspension D 0111-1992 of automobiles

#### 1. Scope

This Japanese Industrial Standard specifies the terms relating to the suspension of automobiles. However, the terms relating to the two-wheeled vehicles are excluded.

Remarks: The standards cited in this Standard are as follows:

JIS B 0101-Glossary of terms relating to fasteners

JIS B 0103-Glossary of terms used in springs

JIS D 0104-Glossary of terms relating to main systems of automobiles

## 2. Classification

The classification of the terms is as follows:

- (1) General terms of the suspension system
- (2) Terms of suspension method and type
  - (a) Suspension method
  - (b) Spring type
- (3) Terms of components

#### 3. Terms and definitions

The terms and the definitions are as follows:

Furthermore, English equivalents and idiomatic expressions are shown for informative reference.

- Remarks 1. If the standard at the end of the definition column is followed by an \*, the definition of the term specified in the applicable Japanese Industrial Standard is further restricted.
  - 2. Parentheses under a term show the pronunciation.
  - 3. Idiomatic expressions are avoided as much as possible.
