General Rules of Dust Test for Automobile Parts

1. Scope

This Japanese Industrial Standard specifies the general rules of the dust test for the automobile parts, hereinafter referred to as the "parts".

2. Definitions

For the purposes of this standard, the following definitions apply:

- (1) dust preventive property The property which prevents dusts from intruding into interior of the parts.
- (2) dust resistant property The property which withstands degradation of performances of the parts against the adherence and intrusion of the dusts.
