**In the event of any doubt arising,
the original Standard in Japanese is to be final authority.**

1. Scope This Japanese Industrial Standard specifies the seat belt for automobiles (hereafter referred to as "seat belt") to be fitted to the automobiles for the purpose of protecting the persons being on board from injuries or mitigating those injuries in the event of a traffic accident.

Remarks: The following standards are cited in this Standard:

- JIS B 0208 Unified fine screw threads
- JIS B 0212 Limits of sizes and tolerances for unified fine screw threads
- JIS B 7753 Light-exposure and light-and water-exposure apparatus (open-flame sunshine carbon-arc type)
- JIS D 0101 Glossary of terms relating to kinds of automobiles
- JIS D 0201 Automobile parts-General rules of electroplating
- JIS D 0202 General rules of coating films for automobile parts
- JIS D 0205 Test method of weatherability for automotive parts
- JIS D 1050 Road vehicles - techniques of measurement in impact tests - Instrumentation
- JIS D 1201 Test method for flammability of organic interior materials for automobiles
- JIS G 4303 Stainless steel bars
- JIS L 0801 General principles of test methods for colour fastness
- JIS L 0848 Testing method for colour fastness to perspiration
- JIS L 0849 Testing method for colour fastness to rubbing
- JIS Z 8901 Dusts and aerosols for industrial testing
