Thermal spraying terms

ICS 01.040.25; 25.220.20

Reference number : **JIS H 8200 : 2006 (E)**

Foreword

This translation has been made based on the original Japanese Industrial Standard revised by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee as the result of proposal for revision of Japanese Industrial Standard submitted by Japan Thermal Spraying Society (JTSS)/Japanese Standards Association (JSA) with the draft being attached, based on the provision of Article 12 Clause 1 of the Industrial Standardization Law applicable to the case of revision by the provision of Article 14.

Consequently **JIS H 8200** : 1998 is replaced with this Standard.

Attention is drawn to the possibility that some parts of this Standard may conflict with a patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have technical properties. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying the patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have the said technical properties.

Date of Establishment: 1986-03-25

Thermal spraying terms

1 Scope This Japanese Industrial Standard specifies terms used for thermal spraying.

2 Classification The thermal spraying terms shall be classified into the following seven categories.

- a) General
- b) Materials and equipment
- c) Surface preparation
- d) Application
- e) Post treatment
- f) Inspection and tests
- g) Safety and hygiene

3 Definitions For the purposes of this Standard, the following definitions apply. Further, English equivalent are shown for reference.

NOTE : If a term includes a bracketed word, the term can be used either with or without the bracketed word.
