Foreword

This Japanese Industrial Standard has been revised by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee as the result of proposal for revision of Japanese Industrial Standard submitted by Japan Paint Manufacturers Association (JPMA) with a draft being attached, based on the provision of Article 12, paragraph (1) of the Industrial Standardization Act applied *mutatis mutandis* pursuant to the provision of Article 16 of the said Act. This edition replaces the previous edition (**JIS K 5668** : 2010), which has been technically revised.

This **JIS** document is protected by the Copyright Act.

Attention is drawn to the possibility that some parts of this Standard may conflict with patent rights, published patent application or utility model rights. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying any of such patent rights, published patent application or utility model rights.

Textured paints (synthetic resin emulsion type)

1 Scope

This Japanese Industrial Standard specifies the requirements for liquid textured paints (synthetic resin emulsion type) mainly used for interior and exterior finishing of buildings ¹⁾, which are mainly made of synthetic resin emulsion and pigment or those added with a filler, and not containing formaldehyde system antiseptics, urea resin, phenol resin or melamine resin.

Note ¹⁾ There are such as stipple finish, orange-peel finish and lunar-surface finish.

2 Normative references
