Foreword

This Japanese Industrial Standard has been revised by the Minister of Economy, Trade and Industry, through deliberations at the Japanese Industrial Standards Committee in accordance with the Industrial Standardization Act. This edition replaces the previous edition (**JIS L 4005** : 2001), which has been technically revised.

This **JIS** document is protected by the Copyright Act.

Attention is drawn to the possibility that some parts of this Standard may conflict with patent rights, published patent application or utility model rights. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying any of such patent rights, published patent application or utility model rights.

Sizing systems for women's garments

1 Scope

This Japanese Industrial Standard specifies the sizing systems and their indication methods for ready-made women's garments (except foundation garments).

2 Normative references

Part or all of the provisions of the following standards, through reference in this text, constitute provisions of this Standard. The most recent editions of the standards (including amendments) indicated below shall be applied.

JIS L 0111 *Glossary of terms used in body measurements for clothes*

JIS L 0112 *Glossary of terms on parts and measurements of clothes*

JIS L 0215 *Glossary of terms on clothes*

3 Terms and definitions

For the purpose of this Standard, the following terms and definitions, and those given in **JIS L 0111**, **JIS L 0112** and **JIS L 0215** apply.

3.1

woman

female person whose growth in height is finished

Note 1 to entry A woman herein refers to a female person whose size corresponds to the control dimensions specified in this Standard.

3.2

man

male person whose growth in height is finished

Note 1 to entry See **JIS L 4004**.

3.3

ready-made garments

mass-produced clothes manufactured in specific sizes and designs as pre-determined by a manufacturer, targeting an unspecified number of people

3.4

size of ready-made garments

expression of size for ready-made garments as a whole

Note 1 to entry Indicated by the control dimensions and the specific garment measurements.
