Japanese Standards Association

In the event of any doubt arising, the original Standard in Japanese is to be final authority.

### JAPANESE INDUSTRIAL STANDARD

JIS

### Clay pipes

R 1201-1991

### 1. Scope

This Japanese Industrial Standard specifies the clay round pipes (hereafter referred to as the "pipe").

- Remarks 1. The applicable standards to this Standard are as given in the following:
  - JIS K 6301 Physical Testing Methods for Vulcanized Rubber
  - JIS K 7114 Testing Method for Evaluation of the Resistance of Plastics to Chemical Substances
  - JIS R 2203 Method of Measuring Warpage of Refractory Bricks
  - 2. The units and numerical values given in { } in this Standard are in accordance with the traditional units, and are informative reference values.

## 2. Types

The types of pipes shall be classified into class I and class II, and further divided into as given in Table 1 according to the shapes.
