Foreword

This translation has been made based on the original Japanese Industrial Standard revised by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee as the result of proposal for revision of Japanese Industrial Standard submitted by Bed Manufacturers Association All Japan (BMAJ)/Japanese Standards Association (JSA) with the draft being attached, based on the provision of Article 12 Clause 1 of the Industrial Standardization Law applicable to the case of revision by the provision of Article 14. Consequently **JIS S 1102:2004** is replaced with this Standard.

However, **JIS S 1102:2004** may be applied in the **JIS** mark certification based on the relevant provisions of Article 19 Clause 1, etc. of the Industrial Standardization Law until August 20, 2018.

This **JIS** document is protected by the Copyright Law.

Attention is drawn to the possibility that some parts of this Standard may conflict with patent rights, applications for a patent after opening to the public or utility model rights. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying any of such patent rights, applications for a patent after opening to the public or utility model rights.

Beds for domestic use

1 Scope

This Japanese Industrial Standard specifies the beds for domestic use¹⁾ (hereafter referred to as beds). This Standard does not cover beds with special functions or structures, such as cribs, sofa beds, bunk beds, adjustable beds, etc.

Note ¹⁾ The beds for domestic use in this Standard mean those beds consisting of a mattress used for sleeping and a bed frame that supports the mattress.

2 Normative references

The following standards contain provisions which, through reference in this text, constitute provisions of this Standard. The most recent editions of the standards (including amendments) indicated below shall be applied.
