Foreword

This translation has been made based on the original Japanese Industrial Standard established by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee in accordance with the Industrial Standardization Law.

This **JIS** document is protected by the Copyright Law.

Attention is drawn to the possibility that some parts of this Standard may conflict with a patent right, application for a patent after opening to the public or utility model right which have technical properties. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying the patent right, application for a patent after opening to the public or utility model right which have the said technical properties.

Assistive products—Shower chairs

JIS T 9260: 2011

1 Scope

This Japanese Industrial Standard specifies the shower chairs among assistive products used when a person washes oneself or has a shower in the bathroom. However, those used in the bathtub and those having movable function by casters are excluded.

NOTE: Bathseats used in the bathtub are specified in JIS T 9259.

2 Normative references

The following standards contain provisions which, through reference in this text, constitute provisions of this Standard. The most recent editions of the standards (including amendments) indicated below shall be applied.

JIS K 6253 Rubber, vulcanized or thermoplastic—Determination of hardness

JIS T 0102 Glossary of terms used in assistive products for persons with disabilities

3 Terms and definitions

For the purposes of this Standard, the terms and definitions given in **JIS T 0102**, and the following terms and definitions apply.

3.1 seat

component to support the human body, which is the plane sustaining the force vertically acting on it

3.2 backrest

component to support the human body, which is the plane sustaining the force horizontally acting on it

3.3 armrest

component to support the arm

3.4 leg

component constructed to sustain the forces acting on the seat and the backrest

4 Name of each part

The name of each part shall be in accordance with figure 1.
