Foreword

This translation has been made based on the original Japanese Industrial Standard revised by the Minister of Economy, Trade and Industry, through deliberations at the Japanese Industrial Standards Committee as the result of proposal for revision of Japanese Industrial Standard submitted by Japan Packaging Institute (JPI)/Japanese Standards Association (JSA) with the draft being attached, based on the provision of Article 12 Clause 1 of the Industrial Standardization Law applicable to the case of revision by the provision of Article 14.

Consequently **JIS Z 0108:2005** is replaced with this Standard.

This **JIS** document is protected by the Copyright Law.

Attention is drawn to the possibility that some parts of this Standard may conflict with patent rights, applications for a patent after opening to the public or utility model rights. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying any of such patent rights, applications for a patent after opening to the public or utility model rights.

Packaging—Vocabulary

Introduction

This Japanese Industrial Standard has been prepared based on the first edition of **ISO 21067** published in 2007 with some modifications of the editorial and technical contents. By comparing the existing edition of this Standard with the corresponding International Standard, this Standard adopts all terms given only in the corresponding International Standard without modifications, and the terms given in both standards with conformations.

The portions given sidelines or dotted underlines are the matters in which the contents of the corresponding International Standard have been modified, or the matters not given in the corresponding International Standard. A list of modifications with the explanations is given in Annex JA.

1 Scope

This Standard specifies the main terms and definitions for packaging.

NOTE : The International Standard corresponding to this Standard and the symbol of degree of correspondence are as follows:

ISO 21067:2007 *Packaging—Vocabulary* (MOD)

The symbols which denote the degree of correspondence in the contents between the relevant International Standard and **JIS** are IDT (identical), MOD (modified), and NEQ (not equivalent) according to **ISO/IEC Guide 21-1**.

2 Classification

The classification of terms shall be as follows.

- a) **Packaging in general**
- b) **Packaging materials**
 - 1) Paper and paperboard
 - 2) Plastics
 - 3) Metal
 - 4) Glass
 - 5) Timber
 - 6) Other materials
- c) **Packaging machinery**
- d) **Environment**
- e) **Information**
